For All Who Prefer Quality

"SALATA" TEA

"Fresh from the Gardens"

Reducing Costs Of Government

Continuing discussion of the above subject, let us consider in a little more detail some of the many duplications in services on the part of the Federal and Provincial Governments.

First, agriculture. Both Governments maintain experimental farms or experiment, illustration or demonstration stations, forestry farms, etc. This work should be confined exclusively either to the Dominion or to the Provinces, and, as conditions vary so greatly as between the provinces, this class of work might well be left to them. The Dominion Department of Agriculture might well confine its efforts to establishing and maintaining standards of weight and quality of all agricultural and allied products, safeguarding the health of animals, preventing the introduction of diseased animals, impure seed, and infected tree and plant life from abroad. Responsible for the fixing and maintaining of standards of quality, the Dominion would likewise be responsible for promoting the sale of these high standard products in the markets of the world. Let the provinces look after the educational and production end, and the Dominion the maintenance of uniform Canadian standards and the development of our export markets for these uniformly high quality products irrespective of province in which they are produced.

Public health. Here, too, the Dominion might well confine its work to safeguarding the health of all through the prevention of disease resulting from disease-afflicted people entering the country, while leaving to the provinces the general work of health education among its people, health inspection and disease prevention. And just as the prairie provinces now pay the Dominion for police services, so the Dominion might pay the provinces for carrying on the necessary health work among the Indian wards of the nation. The Federal Department of Health could thus be done away with, and the work performed through the Immigration Department on the one hand and the Provincial Departments of Public Health on the other hand.

Then there is that most prolific source of friction between Federal and Provincial Governments, namely, company incorporation, company law, inspection, taxation, etc. Hardly a year passes that there is not some reference before the courts to settle the respective jurisdiction of Federal and provincial authorities in regard to these subjects. There is also the heart-burning issue where provincial governments through local government boards, utility commissions, or some similar body, seek to protect their people from irresponsible, not to say dishonest, company promoters and high pressure stock salesmen, but whose best efforts are brought to naught because such companies by obtaining Dominion rather than provincial incorporation can defy the provinces.

It would seem as if all company incorporation should be Dominion, rather than partly Dominion and partly provincial. Then any company could do business in any or all the provinces. If some company desired to engage in a purely local business, its incorporation fee might be made smaller, and its charter so restricted, if desirable, but if all company incorporation was vested in the Dominion, all incorporation fees could be reduced and at the same time Dominion revenues would be increased. Certainly, a vast amount of friction and litigation, not to speak of much duplication in taxation, would be ended, and all Canadian business except the lawyers, would benefit thereby.

Changes such as suggested would mean loss of revenue to the provinces, and increased revenues to the Dominion. It therefore follows that there should be a readjustment of taxing powers. Under the B.N.A. Act the provinces are limited in their taxing power to the imposition of direct taxes, while the Dominion can impose both direct and indirect taxes. The field of indirect taxation is much wider than the field of direct taxation. The Dominion, therefore, might well withdraw from the latter field and leave it to the provinces. By and large this would mean the dropping by the Dominion of the income tax, and leaving that source of revenue exclusively to the provinces.

This is surely worthy of consideration. In the meantime, however, with both Federal and Provincial Governments levying taxes upon income, and with both governments maintaining income tax departments for the levying and collection of such taxes, is it not possible to eliminate the waste of taxpayers' money resulting from such duplication of departments by some arrangement whereby either the Dominion would collect for the provinces, or the provinces which collecting their taxes would likewise make collection for the Dominion? Whichever body was saved the expense might pay to the other a percentage fee on the money collected for it. Not only would the money now wasted in duplication of collecting agencies be saved, but the public would be relieved of much annoyance and the necessity of filing duplicate sets of returns and calculations.

Furthermore, surely it is high time a stop was put to such practices as the one introduced in the recent budget at Ottawa whereby the Dominion imposes a tax on businesses conducted by provincial governments. The recent budget imposes a tax of five cents on every long distance telephone call. This really means an increase of that amount in long distance telephone tolls, which business in these prairie provinces is the exclusively business of the provincial governments. If that additional sum is to be extracted from the patrons of the long distance lines, then it should accrue to the provincial governments, and not to the Dominion. But the Dominion steps in and imposes this tax on provincially-owned public utilities, and even throws additional expense upon the provinces to collect the tax, and do the additional bookkeeping and accounting work which it will entail. This is most illogical and unfair. It would be just as reasonable for the provinces, if they had the power, to impose a tax upon the business transacted by the post office department.

So, in conclusion, we would again emphasize the view expressed in a previous article in this column, namely, that it is expedient that a conference of all the provinces with the Dominion be held with a view to amending the B.N.A. Act, removing therefrom the many causes of dispute between the Federal authority on the one hand and the provinces on the other, more definitely defining the spheres of control of each, and clarifying their respective fields of taxation. The taking of such action would be a long step forward towards reducing costs of government in this country.

Corn is found in 18 out of 43 articles of food in the everyday ration of the average family.

Manitoba-Ontario Highway

The trans-Canada Highway east from Whitecourt, Man., to the Ontario boundary has been completed and formal opening of the 45 mile stretch to Kenora will take place with appropriate ceremonies on Dominion Day, July 1, under the auspices of the Manitoba and Ontario governments.

Douglas' Egyptian Liniment is without a rival. It relieves instantly. Cauterizes wounds and prevents blood poisoning.

Don't believe everything you hear about Egyptian. The growing of tobacco is forbidden in Egypt. The tobacco used for the cigarettes is grown principally in Turkey.

Making Better Use Of Sunlight On Farms

New British Glass Substitute For Window Lighting Is Brought To Farmers

During the past fifteen years there has been much scientific studying of sun rays and their effect on human beings and animals. Ultra-violet rays particularly have been studied. Even the scientists themselves are unaware exactly how ultra-violet rays affect growth, health, and development in both vegetables and animals. They are, however, known to be largely responsible for all three. After exhaustive researches, means have been found not only to produce them artificially, but to facilitate their entry in a natural state into ordinary buildings by using specially prepared material of low cost for window lights.

It is probable that this is one of the greatest boons conferred on farmers, poultrymen, market gardeners, and smallholders by scientists for some time. The specially prepared material referred to surpasses ordinary window glass in that it will permit the passage of ultra-violet rays. Glass will not do so. This, since it is flexible and almost indestructible, it offers immense possibilities for the lighting of livestock sheds, chick and laying pens for poultry, hot and cold frames in the vegetable and flower garden and special covers for raising young plants in the open much ahead of the usual time.

The advantages of using a material which will transmit ultra-violet rays are not theoretical; they have been proved to be profitable in actual tests. Take poultry for example.

Tests carried out both in this country and England have shown that chicks can be raised earlier in the year in brooders which are lighted with the new material and that in winter months adult birds housed behind it lay more eggs.

Another test made in England with a flexible glass substitute called "WINDOLITE" which has now been made available in Canada, showed that a flock of 30 hens behind ordinary window glass averaged 30.30 eggs per hen for the six months from May to December. Another flock behind the glass substitute averaged 78.27 eggs per hen for the six months. Those figures are, in themselves, conclusive.

As far as chicks are concerned, there is decidedly less leg weakness and the usual chicken mortality in brooders is very largely removed.

Livestock buildings and barns lighted with this material should be healthier for animals. One eminent British authority states his belief that tuberculosis in cattle is largely due to their being deprived of ultra-violet rays in dark sheds in winter.

In the garden, berry crops, lettuce and all other small plants can be brought to maturity a fortnight earlier, and of better flavor if grown under covers made of this material.

Another factor in favor of using the new glass substitutes is the extreme cheapness, strength and handleability.

The new British glass substitute for window lighting actually costs less per square foot than ordinary window glass; is unbreakable, except by extreme violence; retains its translucency and ability to pass ultra-violet rays indefinitely and is unaffected by severe climates—yet its weight is less than one fourteenth that of ordinary glass.

"The effect of a true education is to enable a man to assess values and to give him a sense of proportion."

Dogs, like humans, have two sets of teeth.

British inventors are active in producing new metal alloys.

Build Up Health With Spring Tonic

The fashion of taking a Spring tonic is based on sound medical grounds. Winter has thinned and devalued the blood stream so that it isn't carrying enough oxygen. That is the reason for the listless, languid, easily-tired-out condition so prevalent at this season.

What is needed is a tonic—one that will build new blood and restore and purify the blood stream, and thus enable it to carry the energizing oxygen that quickly revitalizes the whole system. Thousands have proven that Dr. Williams' Pink Pills are the ideal tonic for this purpose.

Mrs. A. Merrett of Welland says: "Again last Spring I became ill. I could not do my work; was pale, weak, and tired all the time. I took Dr. Williams' Pink Pills; and they soon made me strong and happy again."

Try them and experience for yourself the new strength and vigour they will bring you. At your druggist's in the new glass container. 50c a package.

Registration Of Motor Vehicles In Canada Drops In 1931

For the first time, the registration of motor vehicles in Canada showed a decrease in 1931, the total for all classes being 1,206,836 as against 1,239,588 for 1930, a decrease of 33,052 vehicles, or 2.7 per cent.

A report issued by the Dominion Bureau of Statistics shows passenger automobile registrations decreased from 1,047,494 cars in 1930 to 1,024,385 last year.

Total taxes collected through registration fees, mileage on buses, etc., was \$461,375 less than in 1930. Eastern provinces showed increased revenue from this source while the prairie provinces and British Columbia all recorded decreases. The total gasoline tax collected amounted to \$22,546,119 as against \$22,655,225 for 1930.

Canada, with an average population of 8.6 persons per motor vehicle, had a greater total registration than any other country except the United States, the United Kingdom and France.

A Real Driving Power.

Joy In Work Carries People On To Success

Is there not rather a tendency as we grow older to lose our enthusiasm, to get a little dull, a little blunted, and to say that "we have sobered down"? Yet how a joy in work carries a man on! It drives him forward in the absorbing pursuit of an ideal, through the rough and smooth places of the world, forgetting all else but the object of his search, in invention, in labor, in art, and—yes—in holiness.

Fresh Supplies In Demand. When the new "Electric" Oil was introduced increased supplies have been ordered, showing that it is put up in most portable shape in bottles and can be carried without fear of breakage.

Regina Man Chosen

Colonel A. G. Styles Will Command 1932 Bislew Team

Col. A. G. Styles, of Regina, will be the commandant of Canada's 1932 Bislew team, the Dominion of Canada Rifle Association has announced. Col. Styles is officer commanding the 191st Infantry Brigade with headquarters at Regina.

The adjutant of the Dominion's team to participate in the National Rifle Association meet at Bislew will be Captain F. Gardiner, of the Vancouver Regiment.

Members of the team are now being selected and announcement of the complete personnel will be made in May. The team will have 18 shooting members in addition to the two officers named. It will sail from Montreal on June 11, returning to the Dominion about August 1.

Would Change Neighbors

Canadians To North Of France Would Be Welcome

Canadians as neighbors to the north of France would be welcome, indeed, were it geographically possible, Jules Jusserand, former French ambassador to the United States, let it be known in an address at Paris.

In a reference to fortresses being built on the French northern frontiers, M. Jusserand, whose address pleaded for less sarcasm and more brotherly love between France and the United States, said:

"Will you (people of the United States) change your neighbors? Take ours and give us the Canadians."

Completes Winter Work

"The flying box car" of the north country, JR-52, a huge Junkers aeroplane, flown to Winnipeg from Montreal last December, arrived back from Norway House, having completed freight operations for the winter. She will remain in Winnipeg until after the spring break-up, when she will be fitted with pontoons and sent back to her summer work.

A new synthetic rubber that has been produced by the vulcanized by heat alone without addition of sulphur.

Cuban Earthquake

Recorded At Ottawa

Delicate Seismographs At Ottawa Observatory Register Ousturbance

The earthquake at Santiago, Cuba, on February 3, 1932, was well recorded by the seismographs at the Dominion Observatory, Department of the Interior, Ottawa. By means of the seismographs the distance to the epicenter was found to be 2,760 kilometers or 1,700 miles, and the time at the origin 1:15-57 a.m., Eastern Standard Time. The maximum ground displacement at Ottawa was about one-hundredth of an inch. According to press reports the damage in the city of Santiago was estimated at \$10,000,000. Nine persons were killed and the casualty list was about 300.

The Age Of Judges

Long Experience Rather Than Youth For Enthusiasm Needed On Bench

It has been said in the House of Commons that judges are too old at 65. No statement could be more absurd. What is needed on the judicial bench is not the fire and enthusiasm of youth, but long experience of life and law. Calm wisdom is the fruit of advancing age. Some of the most famous and permanent judgments in British legal history have been pronounced by men in their seventies and eighties.

Tells Dyspeptics What To Eat

Strict Diets Often Unnecessary

It is a well known fact that some foods have a strong tendency to produce indigestion, and consequent consequent indigestion. By omitting from daily meals those foods that experience proves do not agree and limiting the diet to certain tasteless unappetizing foods, stomach troubles may in many instances be easily overcome. Stomach troubles, however, indigestion, gas, etc., are due to excessive acidity and the excessive pouring of acid into the stomach. Keep the stomach clean and sweet by freeing it of this extra acid and then suffering can be at an end. The food which is most likely to cause indigestion is that which is most likely to cause indigestion. The food which is most likely to cause indigestion is that which is most likely to cause indigestion.

Riding Mountain Park Golf Course

Riding Mountain Park Golf Course, Manitoba, now has a nine-hole golf course, which has been brought up to good playing condition. It was very popular during the past summer with both residents and transients in the park. An additional nine holes will be added in the near future.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powder. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

Savings bank depositors in Austria are reported to be withdrawing their money to hoard it.

"I'm going, anyway"

The modern Miss needs no "time out" for the time of month.

If you've ever taken Aspirin for a headache, you know how soon the pain subsides. It is just as effective in the relief of those pains peculiar to women!

Don't dedicate certain days of every month to suffering. It's old-fashioned. It's unnecessary. Aspirin will always enable you to carry-on in comfort. Take enough to assure your complete comfort. If it is genuine Aspirin it cannot possibly hurt you. Aspirin tablets do not depress the heart. They do not upset the stomach. They do nothing but stop the pain.

Headaches come at inconvenient times. So do colds. But a little Aspirin will always save the day. A throbbing sore that you can hardly swallow is made comfortable with one good gargle made from these tablets. Neuralgia, Neuritis, Rheumatism, Pains that once kept

people home are forgotten half an hour after taking a few of these remarkable tablets. So are the little nagging aches that bring fatigue and "nerves" by day, or a sleepless night.

Genuine Aspirin tablets cost so very little after all, that it doesn't pay to experiment with imitations!

(Made in Canada)

For Better Results in Cooking

THOUSANDS of experienced housewives, from Halifax to Vancouver, use St. Charles Milk exclusively. The improved flavor of their cooking and the economy makes St. Charles Milk doubly appreciated.

Be sure you ask for St. Charles Milk. No other evaporated milk will give you such a wonderful rich, creamy flavor.

ST. CHARLES MILK UNSWEETENED EVAPORATED

C. N. R. Efficiency

Impressive Economy Record Established For Year 1931

Figures upon the operation of the Canadian National Railways for the year 1931 indicate that an impressive economy record was established in the face of heavily declining revenue. The operating revenue for the year reached \$177,273,700, as compared with \$221,770,445 for the preceding year, a decrease of about 20 per cent. Net operating expenses were \$169,688,000 as against \$195,259,507 for 1930, a decrease of 13 per cent. The system, therefore, exclusive of the freight rates Act, will show an operating surplus of about \$7,585,700 for 1931. This, of course, is a very slight hint toward paying the enormous burden of interest on capital investment, but it is at least an operating profit.

The really encouraging thing about the report from Montreal, however, is that while freight traffic revenue dropped about 16 per cent, operations were so arranged that the gross tonnage carried on each freight train operated was maintained and slightly increased. Speed of operation was increased and fuel consumption decreased. Passenger train service mileage operated was 25 per cent less in December, 1931, than in December, 1930, and 29 per cent less than in December, 1932, but locomotives were kept up to the usual average, and "on time" performance for the year set a new high record.

These figures indicate that the efficiency of the system is being improved in the time of adversity, and with an increase in freight and passenger traffic, such as may be expected with a gradual return to normal conditions, the relation of operating net revenue to overhead cost should be greatly improved—D. P. C. in The Border Cities Star.

A hick town is any town, and the bigger the town the bigger the hicks contained in it.

The Egyptian year was divided into three seasons, called the Inundation, Sowing, and the Harvest.

Says Garnet Wheat Should Be Graded Separately In Order To Command A Better Price

If Garnet wheat were graded separately, thus allowing millers to make their own blends, it would have a better chance of commanding a premium in the market than it has at present. This variety is at the moment graded as No. 2 Northern.

Such was the opinion of E. B. Ramsay, chief of the board of grain commissioners, expressed to the House of Commons Committee on Agriculture.

Last October the western grain standards board passed a resolution recommending that separate grades be erected for Garnet. Parliament, however, requested that this action be deferred for the present year, so that the grades will not be disturbed for another 12 months at least.

The chief antagonism against Garnet came from the Canadian millers. Mr. Ramsay told the committee. Their prejudice was due to the yellowish tinge of the flour and not to any inferiority in qualities. Foreign millers had found it satisfactory. Also, Canadian millers did not wish to buy a No. 2 Northern, in which grade Garnet had been put. Asked by W. R. Motherwell (Liberal, Melville), if the real reason for this antagonism might not be that the Canadian millers did not want to incur the expense that might be entailed in adjusting their machinery to grind Garnet, Mr. Ramsay believed this to be a factor.

Of 276,000,000 bushels of wheat produced last year Garnet totalled 45,000,000, thus indicating the popularity of this variety in the west.

Mr. Ramsay urged that blending Garnet with other varieties should be scientific and not haphazard. The high quality of Canadian wheat must be maintained, for the Canadian inspection certificate was the only one accepted in England at its face value. He thought that if foreign importers wanted Garnet, they should know they were getting that variety. At present, they did not know what they were getting inasmuch as shipments were made only on the basis of No. 2 Northern. These might contain 10 per cent. Garnet, or 80 per cent.

New Gold Mines

Rich Areas Are Reported In Northern Manitoba

New gold mines will be discovered and developed in Manitoba, predicted J. F. Wright, of the Geological Survey, in a paper delivered before the annual convention of the Canadian Institute of Mining and Metallurgy in session in Montreal.

Dr. Wright, who has devoted a great deal of his time in recent years to examination of mineral areas in Manitoba, referred particularly to the areas about Island Gods and Oxford Lakes as new ground offering interesting possibilities to the prospector. These areas, formerly inaccessible, can now be reached by airplane, he stated, and have already yielded some promising prospects which he described in some detail.

Practical suggestions and instruction to the prospector were contained in Dr. Wright's paper calculated to direct his efforts into the most productive channels.

Present evidence, concluded Dr. Wright, points towards interesting possibilities in the neighborhood of the three lakes mentioned. They are located about 150 miles west of the northern end of Lake Winnipeg.

Will Exhibit "Flying Scot"

Those who do not expect to travel between London and Edinburgh next May may see in Chicago the "Flying Scot," fastest train in the world. The "Flying Scot" will be transported to the United States in 1933 with its full crew of British trainmen, complete with coaches, sleepers and dining cars and motive power, to be shown at Chicago's Century of Progress Exposition.

"Can you lend me five marks quickly?"
"No, nor slowly either."—Jugend, Munich.

MAY 11, 1933

Turner Valley Oil Field

Sufficient Reserve To Supply Calgary With Gas For Next 20 Years

If the wells of the Turner Valley oil field, about 45 miles from Calgary, were properly and efficiently operated, their output would be sufficient to serve the City of Calgary with illuminating and heating gas for about 20 years.

This statement was given the House of Commons committee of banking and commerce investigating the alleged high price of gasoline in Canada by Oliver Hopkins, head of the geological department of the Imperial Oil Company. He had been called, at the suggestion of Dr. G. D. Stanley (Cons., Calgary East), to describe the Turner Valley situation and its relative position to the gasoline industry of Canada.

Legislation passed recently by the Alberta Government with a view to conserving the output of the wells, had materially reduced the production of crude naphtha, which was a constituent of gasoline. Consequently, the Imperial Oil Company had reduced its production of crude naphtha from 4,800 barrels daily as in 1930, to about 2,400 barrels daily at the present time.

Because of an increase of horse-drawn traffic there was a curtailed market for gasoline and crude naphtha throughout Alberta, and accordingly the Imperial Oil Company had not continued to produce at capacity.

About four-fifths of the crude naphtha was refined by three refineries in Calgary, and the other fifth was sold direct to farmers, who used it in their tractors at a cost of about 10 cents a gallon.

There were about 96 producing wells, of which the Imperial Oil Company owned or controlled 50. In 1930 the production of the whole field was 1,364,584 barrels of crude naphtha, of which the Imperial Oil proportion was 894,531, and in 1931 the total production was 1,372,625, of which the Imperial Oil proportion was 841,039.

In August, 1931, it cost the Imperial Oil Company 8.91 cents for a gallon of crude clear naphtha from the wells, and 8.23 cents a gallon of crude colored naphtha. It cost 35 cents a barrel to transport from the field to Calgary.

Only a small amount of crude oil was produced in the Valley, approximately 150 barrels of crude oil a day. "As I understand it, it is cheaper for a refinery to purchase crude oil from the mid-continent field around Oklahoma than from Calgary, due to high freight rates," declared Mr. Hopkins.

The Wheat Bonus

Over \$11,000,000 Distributed At A Cost Of \$107,000

The cost of administering the wheat bonus of five cents a bushel last year was \$107,000, H. H. Stevens, Minister of Trade and Commerce, told the House of Commons. In committee of supply the House was considering an estimate of \$2,400,000 for the Canada Grain Act. The appropriation represented a reduction of \$331,000 from the sum voted last year.

More than 3,000,000 cheques had to be mailed out to the farmers receiving the bounty, he said. The bonus itself was more than \$11,000,000 last year.

The bonus was administered by the Board of Grain Commissioners, and the \$107,000, taken up with administration costs, represented one per cent of the moneys applied.

Turn Of The Tide

Immigration From British Isles And Dominions Reversed Last Year

The tide of immigration between the British Isles and the Dominions was reversed last year, for the first time in history.

United States Trade Commissioner Rogers R. Townsend at London, England, reported to the Commerce Department 53,000 colonial citizens last year entered the United Kingdom from other parts of the Empire to remain, while 27,000 British citizens emigrated to the Dominions.

Stranger (on board Atlantic liner entering New York Harbor)—"Say, George, what's that tremendous statue over there?"
George—"Oh, that's a monument erected to the memory of Uncle Sam's divorced wife."

Canada's total catch of fish last year weighed 889,000,000 pounds.

Winnipeg Newspaper Union

WHEN ONE'S BUDGET IS LIMITED: IT PLAYS A DOUBLE ROLE!

You can wear this fascinatingly lovely dress for Sunday nights or afternoons.

It has its own little jacket! See the miniature figure!

The jacket has a peplum hip flail and exceedingly attractive sleeves. It's youthfully smart in black crepe silk. The deep bodice yoke that terminates in a fashionable caplet back, is of lace.

And isn't the skirt tricky with its crossed diagonal through the hips?

Style No. 718 is designed in sizes 14, 16, 18, 20 years, 36, 38 and 40 inches bust. Size 36 wears 40 yards of 39-inch material with 3/4 yard of 35-inch all-over lace. The separate jacket takes 2 1/2 yards of 39-inch material.

Printed crepe silk with the bodice of plain toning crepe is chic. Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coat carefully.

Finances Of Canada

Government Ended Year With Cash Balance Of \$53,000,000

Ordinary expenditures in 1931-32 were \$19,000,000 less than estimated, totalling \$378,700,000.

Ordinary revenues, greatly reduced by reason of lower yield from taxation, were \$327,700,000.

Deficit on ordinary account, 1931-32, \$51,000,000.

Expenditures not provided from income—Special (net), including unemployment and farm relief, \$48,000,000; capital, \$16,900,000; loans (non-active), \$33,000,000—resulting in increase of debt, \$119,500,000.

Expenditures on unemployment and farm relief, 1931-32, \$38,250,000; wheat bonus, \$11,000,000.

Government ended year with cash balance of \$53,000,000.

Estimated expenditure, ordinary, and capital, in 1932-33, \$379,500,000, a reduction from the previous year of \$25,400,000 after absorbing an increase of \$12,700,000 in interest on public debt.

Controllable expenditures of the government on the usual services have under the estimates for 1932-33, been reduced \$35,800,000, or 20 per cent, from the previous year.

Revenues under existing taxation are estimated at \$319,000,000, and ordinary expenditures, \$36,900,000.

New taxation will, it is estimated, yield \$35,000,000, balancing current account and leaving a surplus of \$4,300,000.

Provision is not fully made from revenues for capital expenditures or for unemployment relief or railway deficit, although any improvement in business would be immediately reflected in increased yield from taxation and would correspondingly improve budget position on all counts.

May Retire From Public Life

Stated That Lloyd George Will Devote His Time To Writing and Farming

David Lloyd George, one of Britain's greatest political figures, was reported recently to have decided on his virtual retirement from the House of Commons. Only a few years of outstanding importance, said those close to him, would bring the Welsh Liberal and war time prime minister back to the scene of his past triumphs. There was nothing on the political horizon now, it was added, that could be considered as a challenge to him.

Lloyd George, who, in his galvanic person during the war symbolized for many the British "will to win," whose oratory swayed the benches of Commons as had that of few men, will devote himself in the future to writing and farming, his friends said.

While continuing to feel that where Lloyd George is concerned the unexpected might always happen, commentators recently have pointed out that in the strict logic of events it was hard to see just what his place could be in the present political scheme.

Heads Labor Conference

Senator Gideon Robertson Presides At Meeting In Geneva

Elected president of the International Labor Conference, Senator Gideon Robertson, former Canadian Minister of Labor, said he regarded the action as a tribute to the Dominion in view of its constant loyalty to the international labor organization, built up under the auspices of the League of Nations, and Canada's constant adhesion to its principles.

It was also a tribute to the countries of the new world, particularly those of North America, Senator Robertson told the delegates, who had assembled from 50 nations.

The conference will discuss old age pensions, abolition of the fee-charging employment agencies and the admission of children to employment in non-industrial occupations.

WHOOPEE! A FOUR-LEAF CLOVER! OBOYBOY! AM I LUCKY!

No Other Boundary In World Of Such Length As That Which Divides Canada and United States.

Iodized Salt

Research Council Advocates Iodine Survey Of Food and Water Supplies

In the opinion of the Associate Committee on Iodized Salt, an advisory body of Canadian experts created by the National Research Council at the suggestion of the Canadian Medical Association and the Canadian Chemical Association, the widespread sale of endocrine preparations containing thyroid is inadvisable from the standpoint of public health, except under a doctor's prescription, and the sale of these preparations for the treatment of goitre and obesity cases should not be permitted.

The method of administering iodine in table salt is satisfactory but the proportion of iodine now used in iodized salt in Canada, one part in 10,000, is unnecessarily high. One part of sodium or potassium iodide in 200,000 would be sufficient and one part in 100,000 would be satisfactory as a maximum.

The committee suggests that if an iodine survey of food and water supplies in Canada is to be carried out, it should be undertaken by a national body such as the National Research Council. Consultation with the manufacturers of iodized salt by the National Research Council and the organization of research in association with the manufacturers was recommended.

A survey indicated that the sale in Canada of iodized salt is increasing, especially in the areas where goitre is prevalent. In these districts more iodized salt is free running salt is sold. According to the available statistics (not regarded by the Committee as complete), goitre is practically absent in Nova Scotia and New Brunswick and quite uncommon in Quebec. In Ontario its prevalence is quite noticeable at Kingston, increases about the Muskoka district and in the vicinity of Windsor, still increases on North Bay to Cochrane and from Sudbury to Sault Ste. Marie, then diminishes again at Port Arthur and Fort William. It has also been found to be prevalent in Saskatchewan in the vicinity of Prince Albert, while in Alberta and British Columbia it diminishes again, particularly at the coast. The Committee has expressed its interest in the iodine survey of Alberta carried on by Dr. O. J. Walker, of the University of Alberta.

May Lose Silk Trains

Water Route Depriving Canadian Railroads Of Rich Traffic

It is cheaper to ship through the Panama Canal and so Canada may yet lose those romantic cargoes of modern transportation, the silk trains.

The C.N.R. annual report, tabled in the House of Commons, admits that these trains, which frequently have hung up in transcontinental speed records, are disappearing from Canadian railway history.

Says the report: "The increased tendency to use the all-water route through the Panama Canal has seriously reduced our earnings on this traffic."

Undoubtedly the loss of this traffic has been a factor in the report's declaration that C.N.R. freight revenue in 1931 fell nearly 19 per cent below their level for the previous year.

Wheat Bonus

Payment Made On 169,666,968 Bushels Of Wheat

Up to December 31 last year a total of \$8,483,348 had been distributed to the farmers of western Canada under the provisions of the five-cent-a-bushel wheat bonus, according to the annual report of the Board of Grain Commissioners, tabled in the House of Commons. This amount represented payment on 169,666,968 bushels of wheat.

Approximately 3,000,000 bonus certificates were received, checked, and payment made thereon. The commissioners had to increase their staff of clerks and stenographers from 25 to 82 during the heavy shipping season.

Professor: "The difference between a poor man and a millionaire."

Student: "Yes, I know all about that. One worries over his next meal and the other over his last!"

Landlady: "So Mr. Newboard has found something fresh to complain about this morning?"

Maid: "No, mum, it's the eggs."

Many references at gatherings in Canada and the United States are made to the "4,000 miles of unfenced boundary" between the two countries. As a matter of fact the boundary is 5,500 miles in length, of which 3,100 miles are land boundary and 2,400 miles are water boundary. The land boundary is marked by 5,483 monuments and a vista cut through the woods in all forest covered areas; the water boundary is identified by 2,530 reference marks.

The monuments used in the several sections of the boundary are of several types and of different materials. In the mountains of Alaska and British Columbia hollow monuments of aluminum bronze are used; on the more accessible parts of the land boundary, the monuments are of cast iron, granite and concrete. Along the larger waterways the reference monuments are chiefly of concrete, and along the narrower waterways small solid aluminum bronze marks serve to mark the international boundary. Where necessary, monuments of a special type are used, for example, the Gulf of Georgia, the first course of the water boundary, which is eleven miles in length, is ranged by steel towers carrying lights. The offshore tower in this case is sixty feet high.

Partly due to physical characteristics, partly for historical reasons, and partly for convenience, the international boundary has been divided into eight sections. These sections are: (1) The Atlantic Ocean to the source of the St. Croix River; (2) the source of the St. Croix River to the St. Lawrence River; (3) the St. Lawrence River and Great Lakes; (4) Lake Superior to Lake of the Woods; (5) the 49th parallel from Lake of the Woods to the Gulf of Georgia; (6) the Gulf of Georgia and Straits of Haro and Juan de Fuca to the Pacific Ocean; (7) Dixon Entrance to Mount St. Elias; (8) 141st Meridian from Mount St. Elias to the Arctic Ocean.

The boundary between Canada and the United States comes under the jurisdiction and administration of the International Boundary Commission. This Commission consists of two Commissioners, one representing Canada and one the United States. They are guided by five international treaties.

There is no other boundary in the world of such length on which no gun or armament is to be found.

Alberta's Income Tax

Province Expects To Derive Over \$11 Million In Revenue

Even office boys and clerks earning \$15 a week will contribute to the treasury of the Alberta Government through the income tax which is expected to net \$1,374,000 in revenue. Returns on 1931 incomes must be made by May.

Everyone earning \$15 a week who is unmarried must pay a \$3 filing fee plus a 30-cent tax. Married persons with no dependents will pay the \$3 base tax and 60 cents income tax on income of \$30 a week.

Exemptions for single persons are \$750 and for married persons \$1,500.

Only single persons earning \$30 a week or more will be liable under both the Alberta and Dominion Income Taxes, with those earning that amount paying \$11.10 to the province and \$7.20 to the Dominion. Married persons must earn \$50 a week or more to be liable under both taxes, the amount of the taxes on that salary being \$14 to the province and \$4 to the Dominion.

We have often wondered why one never hears the expression "a self-made woman." A woman writer in a Missouri paper offers this explanation: "Most women are so busy helping make some of these 'self-made' men that they have no time for themselves."

Almost half the corrosion waste of the entire world occurs in the United States.

"Your pulse is perfectly regular."

"Nonsense. You are holding my wrist watch."—Die Muskete, Vienna.

Read The Times

People in Irma and vicinity read THE TIMES every week. These subscribers and readers are composed of the representative, substantial citizens of this community. They are people whose present and future are bound up in Irma, people with civic pride and a sincere desire to see their home town grow and prosper. They buy THE TIMES because it stands wholeheartedly for Irma and its people at all times and under all circumstances; because it prints the local news; because it is the only way they can keep informed on what most vitally concerns them, their families, their friends and their business interests. No one living in Irma or its environs could afford to be without THE TIMES at almost any price, but its cost is amazingly small — less than five cents a week.

THE GRACE OF HOSPITALITY

The writer of the Epistles to the Hebrews gives this excellent bit of advice. "Be not forgetful to entertain strangers: for thereby some have entertained angels unawares." And it is a rather remarkable thing that you can discover advice very similar to that in the legends and codes and records of almost every people scattered over the face of the earth. Hospitality to strangers, as an ideal at least, seems to have prevailed almost universally among widely varied races. The Greeks held that the god visited with a specially bitter penalty any one who ill-used a stranger. The Romans believed that special gods watched over guests and chance visitors. Even our own American Indians strongly stressed the virtue of being kind to a visitor. The old Hebrew prophet emphasized the idea that Jehovah was a God of the stranger.

And in the case of many of these peoples who stressed the grace of hospitality, we see a hint of the same philosophy so plainly revealed by the writer to the Hebrews. He says, "Do not miss being good to the stranger, for after all he may not be the plain ordinary visitor that he seems to be; some have entertained what they thought to be a common-place wanderer, only to discover that they have broken bread with an angel from heaven. And so the Indian was taught to be considerate of the unknown one who wandered into his camp, for how did he know from whence he had come, he might even be some special divine messenger sent for his comfort and blessing if he would only receive and minister to him.

Thus the grace of hospitality was urged somewhat in the name of self-interest, though when we follow through the thought we get something much bigger and better than such an appeal. Above everything else this writer to the Hebrews meant to say that this grace of Christian hospitality was such a wonderful and beautiful and vital thing that you never could tell how far it might reach or how much good it might do; that we might expect it to work out very unexpected results. Which is a truth to fit into our life today with special appropriateness. We have strangers within our land, we do not greatly like them, but if instead of shouting names at them we tried playing the part of the friendly host, if we tried to understand and tried to appreciate, might not something very wonderful happen. The day for entertaining angels unaware hasn't gone by if we are not forgetful to entertain strangers.

"One reason why romance lasted longer in the old days, says a careful observer, was because a bride looked much the same after washing her face.

Heard at the poker party: "People must be careful with their money. My wife puts out money in her shoes." "Yes? So does mine. Shoes and hats."

SWINE CLUB CHAMPIONS OF CANADA

Two brothers, Lindsey and Gordon Weir, of Prince Albert, Saskatchewan, who won the Dominion Championship, in swine club work at the Royal Winter Fair, Toronto, recently. The two boys are shown with W. D. Robb, Vice-President of the Canadian National Railways, who donated for annual competition the Robb Trophy, which carries with it the Dominion Championship. For the second year this trophy goes to Prince Albert; last year two girls from this district received the honor.

Hotel Longfellow Built

This hotel, the New Pines at Digby, N.S., was built by Longfellow, N.S., but, however, that he saw it, thought about it or even dreamed or imagined it. What he did do towards it was render immortal the Land of Evangeline, the beautiful Annapolis Valley of which Digby is the gateway, and so create a tourist lure.

The New Pines is being built by the Dominion Atlantic Railway to the further aid in the development of tourist traffic in the Maritimes

and, with the exception of the outdoor swimming pool, the lines for which were borrowed from those at Banff and Lake Louise, it is a handsome building of early English type of architecture. The opening of the Pines will shortly precede a three day festival at Annapolis Royal in commemoration of the three-hundredth anniversary of the arrival there of Sir William Alexander's Scottish colonists under the charter of New Scotland granted by King James I.

Over Two Hundred Trains Daily

The glass covered passenger train shed at Windsor Station, Montreal.

The largest in Canada and comparing very favorably with some of the largest in the United States, the Montreal Terminals of the Canadian Pacific Railway have 40 miles of double main track, six of single main track, 15 switching and delivery yards, over 300 private individual sidings and three interchange tracks with other railways, making a freight train yard of 125 passenger and 100 freight trains a day. Nearly 8,000 freight and passenger cars are moved every day. 51 transfer and yard engines are in service 24 hours of the day and frequently additional locomotives are required. Between 3500 and 3600 men are employed constantly.

There are two large passenger yards, Glen Yard at Westmont, and Place Viger, of which the former is the larger and more important, since it takes care of all incoming and outgoing trains to and from the Windsor street station. An average of 90 trains enter and leave the Windsor station and an average of 40 Place Viger Station daily, which means that 65 outgoing trains at least, have to be switched daily, their cars made ready, inspected, watered, iced and cleaned in preparation for their journey.

Freight traffic is more difficult to handle than passenger. Of the 15 switching and delivery yards, Sortin, Outremont and Hochelaga are the largest. Incoming trains are taken in the receiving yard; outgoing in the classification yard and cars held for orders or repairs in the hold and repair yard.

Heavy traffic means constant attention to insure maximum of safety. The main line tracks are laid with 100-lb rail and rock-ballasted. Nearly 200,000 new ties and 2,800 gross tons of rails were laid in the main line and yard tracks during 1927 without causing a minute's delay to traffic. There are four engine houses on the Terminals, each with stalls for from 24 to 36 engines and on the average 180 trains are dispatched every 24 hours for passenger and freight trains. There are on the terminals 25 buildings, 125 bridges and culverts and many hundreds of drains along the right-of-way.

VIKING

At the annual meeting of the Tennis Club, officers were elected for the season and fees set. Reports for the past year indicated a very successful period, all outstanding debts relative to the construction of the concrete court having been met. The grounds committee were authorized to put the cinder court in shape and make a general Spring clean-up. The interest in Tennis appears to be the greatest ever displayed in this game, and prospects for a record membership is expected. In order to encourage membership, fees have been placed at a minimum, just enough to cover actual outlay on new nets and tapes, etc. For men the fee is \$2.50 and for women and students \$1.50.

Officers for 1932: President, Rev. J. W. Bainbridge; Vice-Pres. Miss Bertha McHenry; Sec'y-Treas. Dr. B. W. Richardson; Assistant Sec'y, Donald Collier. Grounds Committee, H. B. Collier and W. McAthey.

A Tournament will be arranged as soon as membership list is completed and thus all players and would-be players are urged to see that fees are handed in immediately. A hearty invitation is extended to the rural district to join the Club and thus secure the advantage of play upon the superior courts in the village. Special consideration will be given these members.

From expressions of approval heard in the community the move to bring "the talkies" to town is a very popular one on the part of the Elks Hall Company officials. Mr. Kiefer, of Hardisty, a man of wide experience has undertaken the job and the first program will be given on Thursday evening, April 28th, commencing at 8:30 o'clock. The picture selected for the opening night is "The Cohen's and Kelly's in Africa" which from the title we judge to be a real comedy.

If the support of the public is forthcoming, the talkies will be here every two weeks. The first evening's receipts are being handed over for the purpose of assisting in the expense of needed repairs in order to make it possible to have talkies presented in the hall.

Viking now has two newly organized orchestras, the Melody Aces, and the Viking Troubadours. On last Wednesday evening the Melody Aces were well supported in their initial appearance at the Elks Hall and on Friday evening the Troubadours were also accorded generous support. These orchestras are ready for engagements at very reasonable rates.

A meeting of all interested in Baseball and Soft Ball will be held in the Town Hall on Monday evening, April 25th at 8:15 o'clock. A good turn out of all fans is requested as the question of entering a baseball league with Tofield, Ryley and Holden will be discussed, as well as the formation of a Soft Ball league. If there isn't a large and enthusiastic turnout for this meeting both of these games will suffer for a season at least, so if you want them to flourish, come out and register your interest, and don't leave it all for the other fellow.

Tuesday evening the ladies curling club held a joint meeting and a social evening at the home of Mrs. Basil Hilliker.

The losers in the President vs. Vice President competition with which we open our curling season, entertaining the winners.

The early part of the evening was spent in playing games, after which our President, Mrs. Collier called the meeting to order. The minutes of the last meeting were read and approved. Election of officers resulted in the following: President, Mrs. A. Ross; Vice-President, Mrs. W. H. Collier; Sec'y-Treas. Marjorie Barker. With these have been appointed, an Appeal, Prize, and Social Committees.

The Bospital report was very favorable indeed and the ladies wish to thank all those who helped them during the spiel. Mr. Slavik who gave so generously of his time to make the draw and arrange games. Collier's Garage for the use of their window for displaying the prizes, and to those who donated prizes. Birks donated 3rd prize in the G. C.; Mrs. Henton, donated 1st prize in the K.E.; Mrs. Slavik donated the Grand Aggregate; Mr. Stock donated 4th prize in K.E., and to all the merchants who gave us very generous reductions.

Prizes were thus presented to the winners of the regular schedules. First competition being won by Mrs. Slavik's rink, and Mrs. A. Ross' rink. Second Competition by Mrs. Collier's rink and Mrs. Basil Hilliker's rink. The Grand Aggregate game which had not been finished at the time of the spiel was withdrawn by Mrs. Mah.

P. D. McCune, 24 miles east of town, is holding an auction sale at his place on Saturday, April 30th. Col. Rohrer is the auctioneer. See posters for listing.

H. E. Gares will be shipping cattle and hogs next Tuesday, April 25th, for the live stock pool. Let me know what you have to ship. Phone 712.

Bruce News.

The last of the W. L. series of Whist Drives was held in the Hall last Wednesday evening with twelve tables occupied.

Prizes for the evening's play were awarded to Mrs. J. P. Hughes and Joe Piacia, who received respectively, a lovely cream pitcher and a fountain pen. Consolation prizes went to Mrs. Logush, who was presented with a "Choco Girl" wanted to make pots shine; and Tom Holdsworth who captured a pet white elephant.

The Grand Prizes for the series became the property of Mrs. Hughes, who received a beautiful cedar chest containing note paper; and Joe Piacia, whose award was more useful than ornamental, a gent's sweater. Consolation prizes for the series were presented to Mrs. Logush, for her consistent low scores, received a gift of dainty silk lingerie; and Dudley Haight, who for his prowess at cards, received a valuable addition to his wardrobe, with double heels and toes.

At the conclusion of the evening's play, lunch was served at the individual tables by the hostesses, Mrs. Ross and Mrs. Farlinger, assisted by Mrs. Haight, Mrs. Willans and Mrs. Pirie.

As a fitting climax to the successful series of Whist Drives, dancing was indulged in until the small, few hours of the morning, with the Bruce orchestra in attendance.

Mrs. Pirie, with young daughter and her sister Annie, spent a few days last week visiting the home of their parents Mr. and Mrs. Kostereva, at Kinross.

Mr. and Mrs. Hergott and baby visited Mr. Hergott's parents in Edmonton, over the week end.

Mrs. J. P. Hughes went to Viking hospital last Thursday evening and was successfully operated upon for appendicitis on Saturday.

Work on the Edmonton highway west of town will start within the next couple of weeks. Some re-grading will be necessary before the road is gravelled. The old highway, north and west of town (via Jubilee school) is being improved, and will take care of traffic until the highway is completed.

Mr. A. Willans, seriously ill, was removed by train to the University hospital, Edmonton, last Saturday.

Rev. and Mrs. E. C. Zscheche of Camrose, following the usual German Lutheran Sunday School on Saturday, were the guests Saturday evening and Sunday, of Mr. and Mrs. Ed. Bahltz.

Henry Owens, who is recovering from his recent operation, is high in his praise of the service rendered, and the attention given by the staff of the Viking Hospital.

Lawrence Wilson is reported ill and confined to bed.

The Tennis Court Committee and the Community Club have joined hands for the summer, and are sponsoring a soft ball team and other sports. A new net is being added to the tennis equipment, and a six foot board fence around the two courts is planned.

Last Sunday, at the United Church, Rev. Bosworth, before a large and appreciative congregation, conducted a re-opening service following the renovation of the church building. Ten members of the Holden U. C. choir were present, and led in the singing. With Mrs. Bosworth at the organ.

The pastor after a scripture lesson taken from Second Chronicles, 12th chapter, used as his text, Romans 12:2 and appropriate to the occasion, drew from the fact of the improved edifices, lessons bearing on Christian life.

A Benefit Dance in aid of a needy family is advertised for the evening of April 28th, at Negor school, Torlea. Good music will be provided. Gentlemen: thirty-five cents; ladies asked to bring refreshments.

WILL DISCONTINUE GRADING OF CREAM BY GOVERNMENT

Creamery operators received notice Friday from the provincial dairy commissioner, that government cream graders will be withdrawn after May 15th, and manufacturers will be required to engage licensed graders on their staffs. There will be no break in the high standard of Alberta cream grading, it is said, because the inspectors of the government that now supervise the grading done in 75 smaller creameries of the province who include a qualified grader among their workmen, will now be extended to supervise close the grading done by the centralizers or larger plants.

The change is made to comply with repeated demands by the operators, who paid for the government graders' work in their plants, and contended that if the graders were on their own staffs, part of their time could be utilized for other work and costs of grading reduced for the producer who really bore the burden.

Here and There

Prince Iyeano Tokunawa, president of the Japanese House of Representatives, and his son, Hon. Iyeano Tokunawa, Japanese Minister to Canada, met recently on board Canadian Pacific liner Empress of Russia. The Prince was on his way to London to attend the Inter-Parliamentary Conference and took the opportunity to see his son who had come to Victoria from Ottawa to meet him.

Leaping into shark-infested waters in the China Sea halfway between Hong Kong and Shanghai, Carpenter Tom Ellworthy, of the S.S. Empress of Russia, saved the life of Mrs. Mikakoff, passenger on the ship who had jumped overboard in a fit of dementia. The woman, who had been rescued by the 4th Engineer, Dean went to Ellworthy's assistance, the two men succeeding in bringing her back aboard ship after long and exhausting struggles.

Beating the world's record in passenger traffic operation, Western Canada comes into the limelight this year with the 1252 mile continuous run from Port William to Calgary of the Canadian Pacific locomotive number 2808. A number of locomotives of this class are now being built by the railway, equipped with roller-bearing boxes which will further facilitate engine operations on long runs.

The season's first climb of Mt. Temple, 11,600 feet peak in the Rockies, was made last week by Dr. Thorburn, of Philadelphia, well-known writer and Alquist, and W. Kerr, of Vancouver. Edward Kerr, down of Swiss guides in the Rockies, was in charge of the climb which started out from Chateau Lake Louise at three in the morning and reached the summit at ten.

With the opening of the New Times Hotel at Digby and the Algonquin Hotel at St. Andrews-by-the-Sea at the end of June, the tourist season in the Maritime Provinces is now in full swing. Reservations at both hotels are very heavy, forecasting a prosperous season.

Difficulties met by Canadian and United States motorists when taking their cars to Europe have been overcome by facilities afforded by the Canadian Pacific Railway, under which the owner can ship his car as baggage between Canada and European points in either direction. The company arranges for the necessary customs and registration documents for every country to be visited, driving licenses, license plates, and membership in the Royal Automobile Club. The car is unloaded within an hour of the ship's arrival and is furnished with fuel, oil and a small supply of gasoline and tools ready for the road. There is a refund of the car bond or other financial guarantee required.

Believed to be the largest salmon ever taken by fly on the Medway River, Cape Breton, Archie Joudry, of Chatham, N.S., has just recently caught a fish which weighed 32 lbs., was 24 inches long and with a girth of 11 inches. The fish has been photographed for reproduction in the Saturday Evening Post.

The railway grade crossing problem is not a problem of the railways making but essentially a public problem, responsibility for its solution rests upon society as a whole, in the opinion of W. P. Borland, Chief of the Bureau of Safety, United States Interstate Commerce Commission.

At the annual meeting of the Canadian Pacific Railway Company held early this month dividend of 2 1/2 per cent, on common stock for quarter ending March 31 last, was declared from railway revenues and assets, amounting to \$1,000,000, 10 next to shareholders of record May 20. R. S. McLaughlin, of Oshawa, president of General Motors of Canada Limited, was elected to the board of directors.

Canada's new championship 18-hole golf course, the Royal York of Toronto, is scheduled to be opened officially May 19, when it is expected there will be a distinguished gathering of golfing notables present together with E. W. Dealy, chairman and president of the Canadian Pacific Railway, the organization responsible for the creation of the course. It has a length of 3,140, 3,370, 6,610 yards from the championship tees and a par of 35-37-72.

A bright Atlantic silver salmon, weighing 28 lbs., hooked on the Cain River, April 23 last, by David Hayes, vice-president of the General Electric Company, Bridgeport, Conn., is regarded as the record spring run salmon ever taken by sport fishermen. The fish, 30 inches long, all of which, except some scales, were returned to the water. Mr. Hayes saw such good fishing, he said.

At the Calgary Bull sale held recently, the largest sale in North America at which bulls are sold singly, 531 bulls realized \$115,475, 28 per cent, or \$32,365, a record. Hereford were the sensation of the sale, 218 head bringing \$68,395, or an average of \$304.56 per bull.

"Lady Victorine," barred Plymouth Rock hen which last year laid 385 eggs in 365 days, a record, is this year bidding strongly to maintain her position, having laid 16 eggs up to April 15, and keeping up her average since that date.

IMPORTANT NOTICE

Government of Alberta

INCOME TAX RETURNS

Income tax returns under the new Provincial Income Tax, are now due and should be filed with the Superintendent of Income Tax, Qu'Appelle Block, Edmonton.

BEFORE MAY 31, 1932

Forms for returns may be procured from any Provincial Government Office, such as court houses, land titles office, land offices, municipal secretaries, sheriffs, bailiffs, etc. or from any bank, or direct from the Supt. of Income Tax, Edmonton.

All persons residing, employed, or carrying on business in Alberta, are liable to a tax on income, subject to the exemptions provided for in the Act.

Taxpayers are urged to go at once to the nearest office where forms may be procured, secure the necessary forms and make their returns immediately. Those who, after deducting the exemptions allowed in the Act, are not liable to a tax, need not file returns.

Full information re exemptions and method of filing returns is contained on the forms themselves.

The general penalty for failure to file returns by the date specified is 5 per cent of the amount of tax payable, with a maximum of \$500. Specific penalties are provided for failure to file returns under certain classifications.

CLASSIFICATION OF FORMS

Form 1 is for Individuals other than farmers or ranchers.

Form 1A is for Farmers and Ranchers only.

Form 2 is for Corporations and Joint Stock Companies.

Form 3 is for Trustees, Executors, Administrators, Agents and Assignees.

Form 4 is for Employers, including educational, charitable and religious institutions, making a return of the names and amounts paid to directors, officials, agents or other employees during 1931.

Form 5 is for Companies and Joint Stock Companies making a return of all dividends and bonuses paid to shareholders and members during 1931.

Further information will be furnished on application to

INCOME TAX BRANCH
Qu'Appelle Block, Edmonton

HON. R. G. REID,
Provincial Treasurer

E. M. GUNDERSON,
Supt. of Income Tax

The Wastebasket

"How do the bees dispose of their honey?" asked the teacher of a class in country school near here. "They sell it," replied the bright pupil.

"Are they well mated?" asked a lady of another guest at a wedding recently. "Yes," he replied, "he can't hold a job, and she can't hold her tongue."

Heard at the ladies social: "Isn't it remarkable how she keeps her age?" "Yes, she hasn't changed it for ten years."

Heard at the poker party: "Have you noticed that a woman always lowers her voice when asking for something?" "Yes, and raises it when she doesn't get it."

NOTICE

The Irma S. D. No. 2435 will receive sealed tenders for the position of janitor for the Irma School, due to commence May 3rd, 1932. All tenders must be in the hands of the Chairman, Mrs. S. V. Schonert, by April 30th. Lowest or any tender not necessarily accepted.

Chas. Wilbraham, Sec-Treas.

NOTICE

The Irma S. D. No. 2435 will receive sealed tenders for the position of Secretary-Treasurer, duties to commence May 3rd, 1932. All tenders must be in the hands of the Chairman, Mrs. S. V. Schonert, by April 30th. Lowest or any tender not necessarily accepted.

Chas. Wilbraham, Sec-Treas.

ITEMS OF LOCAL INTEREST

No matter how well organized a newspaper is, it is impossible for its reporters to gather all the local items of interest—some of your acquaintance has taken a trip or returned from one; you have friends or relatives visiting you; a former citizen has returned on a visit—all of these small incidents, and many more, are of interest to our readers.

As we wish to make this paper a more live, local newspaper, we would greatly appreciate receiving local items from our readers. By informing us of local news, you are doing us an appreciated service, as well as a service to our readers.

ENTOMOLOGIST WARNS OF CUTWORM MENACE

Arthur Gibson, Dominion Entomologist, calls attention to the probability of severe damage by the pale western cutworm in 1932 in areas in

Saskatchewan and Alberta which were infested last year. He states that any fields which were undisturbed so that the soil surface was craked or crusted, from August 1st to September 15th in 1931 should be reasonably free from cut worms this year. Reseeded fields which were cut after September 15th, 1931, should be considered as safe as if they were undisturbed during August, 1931. Mr. Gibson suggested that where there is a doubt as to a field being free of cutworms a test should be made by seeding an indicator strip of wheat diagonally across the field. This indicator strip should be seeded as early as it is possible to get a drill on the land and long before regular seeding starts. This strip will give a fair example of the condition of the field as weather conditions which will bring this grain to a height of about five inches will also hatch many of the eggs. If on examination from ten to fifteen plants per square yard show injury the field should not be seeded. Under normal conditions the strip will show by the end of the first week of May or earlier whether or not cut worms are present. No fields should be seeded to any crop, especially flax, where cutworm damage is evident so long as there are cutworms present and active.

Here and There

New Brunswick will have an open season for partridge shooting from October 1-15 this year according to an order issued by Hon. L. P. D. Tilley, provincial Minister of Lands and Mines.

Value last year of Nova Scotia fisheries was placed at \$10,411,200, according to a recent Canadian Government report. The lobster and cod are of chief importance.

Since the Royal Canadian Air Force made its first experimental flight over Lake Winnipeg in 1922, the total number of photographs taken from airplanes in Canada is close to half a million.

Condemned to the stockyards three years ago, Cano Paul Bruce, mature Holstein bull, was recently crowned grand champion Holstein bull of the Calgary stampede and exhibition. He was acquired from his former owner by the Canadian Pacific Strathmore farm and won in the railway's colors.

To see his 28 nephews and nieces in Canada; to return the visit made him by the Canadian Bishops last year; and to see the Cathedral on Vancouver Island, are the three reasons for the two months' visit to the Dominion of His Lordship the Bishop of London, Dr. A. E. Wingham, who arrived recently aboard the Duchess of York.

SHE WORRIED ABOUT HER WEIGHT

"I started taking Kruschen Salts a month ago. I have lost 5 pounds in weight, and I feel as if I have lost 50 lbs. I am full of vigor, whereas before I was worried about my condition, as I was listless and worried over little things. But I am thankful to say that, were my troubles doubled, they would not worry me to-day—thanks to Kruschen."—Miss V. P.

Here's the recipe that banishes fat—take one-half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning, for "It's the daily dose that takes off the fat."—Don't miss a morning. Kruschen daily means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

Modify your diet, and take gentle exercise. The stomach, liver, kidneys and bowels are tuned up, and the pure, fresh blood containing these six salts is carried to every part of the body, and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and a charming figure.

WORLD HAPPENINGS BRIEFLY TOLD

France will take part in the Olympiad at Los Angeles.

A resolution favoring shorter working hours for labor has been voted upon favorably by the British Columbia legislature.

Men at The Pas, Man., are seeking rights from Ottawa to fish in the Hudson Bay. They would operate on a commercial basis.

John Fletcher, a notable figure in the early history of telegraph development in British Columbia, died recently at Palo Alto, Cal.

Guglielmo Marconi has developed a completely successful ultra short wave radio telephone capable of receiving and sending.

Saskatchewan's coal output for February of 1934 was 108,435 tons, an advance over the same period a year ago.

A trading loss of \$646,606 for the past year, including provision for its liability in the losses of subsidiary companies, was reported by the Hudson's Bay Company.

Rumors prevail at Seward, Alaska, that Jack McCord, a promoter, has discovered platinum bearing sands on Chirikof Island and was planning to start immediate development of a mine.

Hugh S. Gibson, the United States delegate, proposed to the world disarmament conference the abolition of offensive weapons including tanks, heavy mobile guns and gases as the key to the disarmament problem.

When Andrew W. Mellon arrived in London, England, to take up his duties as United States ambassador, he was given an ovation by a considerable crowd at the railway station.

Ask For Protection Of Livestock Industry

Domestic Minister Of Agriculture Requested To Call Conference

A meeting of the Saskatchewan Livestock Board held in Regina passed a resolution requesting the Dominion Minister of Agriculture to call a conference of all livestock interests in Canada before the Imperial Conference in Ottawa in July to draft a policy for the protection of the livestock industry to be presented at the conference.

The meeting also endorsed a similar request from the Western Canada Livestock Union. It was intimated at the meeting that in the case of the Dominion declining these requests the Livestock Union might call an independent meeting and, in case this was done, the Livestock Board requested that the six presidents of the Saskatchewan Associations, horse, cattle, sheep, swine, poultry and ranchers, be invited to attend.

By twisting the handle of a new hairbrush either short or long bristles are extended for use.

The per capita income of Czechoslovakia last year was about \$125.

Bilious For Days At Time Until She Took Vegetable Pills

Gratefully, Mrs. C. writes: "The first dose of your wonderful Carter's Little Liver Pills gave me great relief after every medicine I tried failed." Because they are PURELY VEGETABLE, a gentle, effective tonic to both liver and bowels, Dr. Carter's Little Liver Pills are without equal for correcting Constipation, Acidities, Headaches, Poor Complexion, Indigestion, etc., etc., & 75c. red pkgs. everywhere. Ask for Carter's by NAME.

W. N. U. 1938

Coal Production

Heavy Increases Shown For Saskatchewan and Alberta Mines

Canadian coal producers reported an output of 1,188,349 tons of coal during February; an increase of 23.4 per cent. over the February, 1931, production according to the Dominion Bureau of Statistics. Alberta's production reached a total of 537,025 tons as against 336,502 tons in February, 1931. Nova Scotia's output was 349,830, a decline of 13.4 per cent. from the total for the corresponding month of last year. Compared with February, a year ago, the British Columbia production of 174,027 tons showed an increase of 18.8 per cent.; Saskatchewan's output of 108,435 tons recorded a 99.1 per cent. advance; on the other hand, the New Brunswick production of 19,032 tons was 10.3 per cent. lower.

Receipts of anthracite coal consisted of 119,495 tons from the United States, 8,916 tons from Great Britain, and 650 tons from Belgium. Imports of bituminous coal totalled 378,848 tons, of which tonnage the United States supplied 99.3 per cent. and Great Britain the remainder.

Exports of coal from Canada were recorded at 26,948 tons or 24.5 per cent. above the February, 1931, total. Approximately 72 per cent. of the month's exports were cleared through customs' ports in Manitoba, Saskatchewan, Alberta and British Columbia.

MAKE THESE "YOUNG" PAJAMAS FOR DAUGHTER AND YOU'LL BE THRILLED AS SHE!

The softened neckline is a darling Vogue. And isn't the partial belt effect smart the way it ties so youthfully in bow at the back? The circular cut trouser legs are moderately full as the younger set wears them.

A crepe de chine print with pink motifs on pale blue ground is decidedly French and exceedingly dainty in effect, as the original.

It can also be carried out in crepe satin, rayon novelties and flat washable crepe silk for bedtime.

For lounging, you may choose plain or novelty wool crepe, wool jersey and crepe silk in plain or print.

Style No. 816 is designed for sizes 12, 14, 16, 18, 20 years, 36 and 38 inches bust. Size 16 requires 3½ yards of 39-inch material with ¾ yards of binding.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

The German firm which built the Los Angeles and other well-known airships has put a small airship engine into an automobile.

The woman who is thoughtful is never a successful gossip.

ALLIED AND ENEMY FLYERS FRATERNIZE

Allied and enemy flyers and observers who fought in the clouds to the accompaniment of whining struts and Lewis gunfire, gathered recently in the Royal Alexandra Hotel, Winnipeg, to attend a banquet sponsored by the Aviation League of Manitoba. More than a hundred Manitoba wartime pilots and observers from both sides attended the reunion.

In this picture, Karl Neumann, left, who claims membership with the great Baron Richthofen's famous "Flying Circus," is seen recounting a war exploit to an interested audience of Manitoban pilots.

This picture shows a portion of the gathering relating wartime exploits as the cocktail tray goes round.

Tax On Insurance

Imposition Of One Per Cent. Of Premiums Other Than Life, Marine and Farm Mutual

Imposition of a tax of one per cent. of net premiums of insurance companies authorized to transact business in any province of Canada, other than life, marine and farm mutual, was announced in the budget speech of E. N. Rhodes, Minister of Finance, in the House of Commons.

"The tax upon insurance premiums passed at the last session was not put into effect by proclamation as provided by the statute, owing to difficulties over the jurisdiction of the Dominion and provinces in the matter of insurance," Mr. Rhodes remarked.

"It is now proposed, under the Special War Revenue Act, to impose a tax of 1 per cent. of net premiums of insurance companies authorized to transact business in Canada, or in any province of Canada, other than life, marine and farm mutual. This tax was in force from 1915 to 1929. British and foreign companies, not so authorized, but maintaining deposits with the Dominion, will also be assessed 1 per cent. of net premiums received in Canada. Canadian policyholders who insure their property in Canada with companies other than those mentioned above, will be charged a tax of 15 per cent. of the gross premiums payable on such insurance."

Platinum Will Evaporate
Platinum is caused to evaporate like water by a discovery announced from the California Institute of Technology. This precious vapor, probably the world's highest-priced mist, condenses into unimaginably thin films upon a wide variety of materials. It coats them virtually permanently.

A lovely girl with red hair entered the car and sat down beside a youth. Youth (edging away)—"I must not get too close or I shall catch fire." Girl—"Don't be alarmed; green wood never catches fire."

Of the 120 electric clocks that keep time for the passengers on the "Empress of Britain," only 35 are of standard pattern, the rest being replicas of famous clocks.

Recipes For This Week

(By Betty Barclay)

ICE BOX LEMON PIE

(Makes 1 pie)

Mix thoroughly

1½ cups sweetened condensed (not evaporated) milk.

1½ cup lemon juice.

Grated rind 1 lemon.

2 egg yolks, beaten.

Pour into pie shell, 8-inch, size. Cover with meringue made of

2 egg whites beaten stiff with

2 tablespoons sugar.

Bake in a moderate oven (350 degrees Fahrenheit) until meringue is brown (6 to 12 minutes). Chill before serving.

PORTUGUESE TOMATOES

2 cups cooked meat.

6 large tomatoes.

2 cups gravy.

1½ teaspoon sugar.

Salt and pepper.

Peel the tomatoes and simmer them gently in the gravy, adding the seasoning to them. When the tomatoes are tender but have not lost their shape, skilt them out and put where they will keep hot. Heat the meat in the gravy and make rounds of toast. Serve the meat on the buttered toast with a tomato on top of each.

New Kind Of Auction

Fishing Rights In Waters Of New Brunswick Leased

Of international interest to anglers, an auction, the only one of its kind in the world, was held in the assembly chamber of the New Brunswick parliamentary building, when 35 stretches of trout and salmon waters were leased to the highest bidders for 10-year periods. No bids were made for the remaining 23 leases. As a result of the sale of fishing privileges the province will receive a yearly revenue of \$57,318.50.

There are extensive deposits of gold in Peru that have not been mined because of their remote location and lack of transportation.

One of the newest uses that farmers have found for electricity is to heat hotbeds.

Exhibit Makes Long Journey

Norfolk Islands Send Prize Beans For World's Grain Show

It's a big jump from the Norfolk Islands in the southern Pacific to Regina on western Canada's prairies, but it was made in a single leap with the arrival of prize beans for entry in the competitive classes of the World's Grain Exhibition to be held at Regina next year.

Seventy years ago, the Norfolk Islands, having an acreage of 9,000 acres and a population of less than 1,000 were a penal settlement, a place where law breakers of England worked out their destiny in chains and under guard.

Its thousand people today are agriculturists and produce as a staple product beans of high quality. Officials of the World's Grain Exhibition announced, recently that they had received an excellent sample of beans from Nobby Buffett, a farmer of the islands, for entry in the bean class to compete with those from other parts of the world when next year's big grain exhibition is held.

The Norfolk Islands compose one of the smallest units of the British Empire, located in the southern Pacific. They are 800 miles east of Australia and 400 miles north of New Zealand. M. Buffett's entry was inspired by the interest created by W. Ross, Canada's trade commissioner in Australia.

A Notable Event

West Received First Telegraph Message 56 Years Ago

It was just 56 years ago the first telegraph line linking the North West Territories with eastern Canada was completed and put in operation by the Dominion Government. From Telegraph Flat at Battle River, now in Saskatchewan, the first sputtering message was sent over Indian and buffalo ridden plains to the east.

And the first despatch was a news despatch telling of happenings in the "far western country" around Saskatoon, Regina and Moose Jaw. This was followed by a despatch from the Pelly office, with greetings from Swan River.

The line, established by the Dominion Government but later abandoned when the C.P.R. put in a telegraph line to Moose Jaw, ran from Qu'Appelle through the Touchwood Hills to Battleford and Edmonton. It was primarily used for protection purposes and for communication between R.N.W.M.P. posts.

Rum Running Case

Nova Scotian Vessel Is Forfeited To United States Government

The Nova Scotian vessel, "Josephine K," which was seized off Amherst Light in January, 1931, has been forfeited to the United States Government with the consent of her owners, it was announced in New York.

United States Attorney George Z. Medele disclosed the action which, he said, was agreed to by counsel for the Liverpool Shipping Company, owners of the boat. The wines and liquors found aboard will be destroyed.

Seizure of the boat caused international complications because her skipper, William P. Cluett, was killed in the coastguard case. An inquiry, however, resulted in the ruling that the coastguard acted within regulations.

Life On The Farm

Hardships Not Any Greater Than In City Life

There has been altogether too much talk about the hardships being experienced by farmers. No one denies that these are very real in a large number of instances and everyone must recognize how essential to the prosperity of all the rest of us is that of the people on the land. But they are hardly so badly off as one would gather from stories that are being given wide circulation at home and abroad.—Edmonton Journal.

Better In Canada

"Conditions are better in Canada because Canadians were not as madly excited as Americans by post-war conditions," declares Arthur Stringer, Canadian author. "There is a stability among Canadians that is probably due to the Scotch strain among them," he said.

Ultra-violet ray lamps are to be installed in Highland Park Zoological Garden, Pittsburgh, Pa., to improve the condition of animals from tropical lands.

"Will you give ten cents to help the Old Ladies' Home?"

"What! Are they out again?"

Chicago has more hotels than any other city—604.

Why Not British Films?

Canada Is Depending Too Much On Foreigners For Motion Pictures

"Canada is the only country in the world of continental dimensions which depends on foreigners for spiritual refreshment coming to us by way of the theatre," declared Arthur Stringer, noted Canadian author, in addressing members of the Empire Club at Toronto.

He believed there should be a real effort to turn to "England and draw on the accumulated glory of the British stage," and declared Canadian audiences were denied the privilege of witnessing 90 per cent. of English stage successes until and unless provided through the "kindly offices of Broadway."

Moving pictures were even more "monopolistic," he maintained. "If we as Canadians do not like the \$2,000,000 picture that they dump at our door we can lump it," he said. "Or we can make our own, and, having made it, we can sit down and wonder where we can get into a theatre to show it."

Barley vs. Corn

To Determine Value Of Barley As A Food For Poultry

A grant of \$1,000 has been made by the National Research Council to assist Prof. M. C. Herner, of the Manitoba Agricultural College, in his investigation to determine the value of barley as a food for poultry. The study is part of the effort that is being made to learn whether or not imported corn can be displaced by Canadian grown barley as a food for livestock. Professor Herner hopes to get results that will indicate that barley can be used satisfactorily in all poultry rations, in what form it should be fed and what combinations should be made. He hopes to have results upon which to base definite conclusions before the end of the year.

Entries Will Be Unusual

Chilliwack Growers Carefully Selecting Grain For Exhibition

Growers of the Chilliwack district, B.C., are active in the selection and preparation of grain and seed for entry in several classes at the World's Grain Exhibition and Conference to be held next year, according to J. J. Thurston, a prominent agriculturist of that district, who visited Regina a few days ago. Mr. Thurston adds that although the farmers there devote the major portion of their time and energy to dairying the number and quality of the entries in grain and seed will make exclusive grain growers sit up and take notice.

Will Be Lenient

Radio Owners Given Time To Pay License Fee

A lenient attitude is to be taken by the Department of Marine in the collection of the \$2 license fee for radio receiving sets. In a statement issued by Alfred Durand, Minister of Marine, he made it clear that radio owners would be given until June 1 to secure their new licenses and when a citizen was willing to pay, the Department would give him ample time to do so.

"I suppose you visited the great art galleries while you were abroad?"

"No, we didn't need to. You see our daughter paints."

Switzerland has a railway and auto-truck dispute.

"Look at those Siamese twins. It is silly to come to a ball fastened together like that."

"That is Mr. Dunce and his wife. It is the only way she would permit him to come."—Megendorfer Blacketer, Munich.

THE HOUSE OF DREAMS-COME-TRUE

— BY —

MARGARET FEDLER

Author of "The Splendid Folly," "The Hermit of Far East," "Hodder & Stoughton, Ltd., London."

CHAPTER XVIII.—Continued

For a moment they faced each other, his eyes, stormy as her own, dark with anger. His hands clenched themselves.

"If I could," he said hoarsely, "I would 'make' it my business."

He wheeled round and left the room without another word. Jean stood staring dazedly at the blank panels of the door which had closed behind him. She wanted to laugh . . . or to cry. To laugh, because with every sullen word he revealed the thing he was so sedulously intent on keeping from her. To cry, because he had taken her pretended indifference at its face value, and so another film of misunderstanding had risen to thicken the veil between them—the veil which he would not, and she, being a woman, could not, draw aside.

CHAPTER XIX.

The Spider

Probably masculine obtuseness and the feminine faculty for dissimulation are together responsible for more than half the broken hearts with

"I haven't been so happy for years"

"I've just thrown out all my dust cloths

—because I've found how to do the work better, easier and quicker.

Use Appleford Wonder Paper now. You buy it in a neat package that tucks away handily in a table drawer. Twenty-five large sheets for a quarter. When you use it, you simply crumple a sheet into a soft wad and go over whatever needs attention.

"I've never seen anything like Wonder Paper. It really dusts, cleans and polishes at the same time. It takes up dirt like magic, and so easily. And you can use both sides."

"What I used to loathe about dusting was the bother of keeping the dusts clean. I always used odds and ends of old shirts and the like—and it seemed to me I was eternally washing them. It worried me just to throw them into a bag or cupboard. They seemed so unsanitary."

"The beauty of Wonder Paper is that you throw it away when you're through with it."

"I can promise that you'll like Wonder Paper. It gives you just what you need, much more attractive than dusting."

Special Offer

WONDER PAPER is made by the makers of the famous PARA-SANI Heavy Waxed Paper in the Green Box. Most grocery, hardware and department stores have Appleford Wonder Paper in stock. If yours hasn't, send us the coupon below and we'll give you a booklet entitled "Leftovers", containing one hundred recipes, as a bonus for your trouble.

Appleford Paper Products, Ltd., Dept. Hamilton, Ontario

which the highways of life are littered.

The Recalcitrant Parent, the Other Woman—be she never so gullible—or the Other Man, as the case may be, are none of them as potent a menace to the ultimate happy issue of events as the mountain of small misunderstandings which a man and a maid in love are capable of piling up for themselves.

The man is prone to see only that which the woman intends he shall—and no self-respecting feminine thing is going to unveil the mysteries of her heart until she is very definitely assured that that is precisely what the man in the case is aching for her to do.

So she dissimulates with all the skill which Nature and a few odd thousand years or so of tradition have taught her and pretends that the Only Man in the World means rather less to her than her second-best shoe buckles. With the result that he probably goes silently and sadly away, convinced that he hasn't an outside chance, while all the time she is simply quivering to pour out at his feet the whole treasure of her love.

In this respect Blaise and Jean blundered as egregiously as any other love-befogged pair.

Following upon their quarrel over the matter of Jean's attitude towards Geoffrey Burke, Tormarin retreated once again into those fastnesses of aloof reserve which seemed to deny the whole memory of that "magic moment" at Montevan. And Jean, because she was unhappy, flitted out, raged with the origin of the quarrel, finding a certain reckless enjoyment in the flavour of excitement lent to the proceedings by the fact that Burke was in deadly earnest.

Playing with an "unexploded bomb" at least sufficed to take her thoughts off other matters, and enabled her momentarily to forget everything for which forgetting seemed the only possible and sensible prescription.

"But you can't forget things by yourself. Solitude is memory's closest friend. So Jean, heedless of consequences, encouraged Burke to help her.

Lady Anne sometimes sighed a little, as she watched the two go off together for a long morning on the river, or down to the tennis-court, accompanied, on occasion, by Claire Latimer and Nick to make up the set. But she held her peace. She was no believer in direct outside interference as a means towards the unravelment of a love tangle, and all that it was possible to do, indirectly, she had attempted when she revealed to Jean the history of Blaise's marriage.

She did, however, make a proposal which would have the effect of breaking through the present trend of affairs and of throwing Blaise and Jean more or less continuously into each other's company. She was worldly wise enough to give its due value to the power of propinquity, and her innocently proffered suggestion that she and her two sons and Jean should all run up to London for a week, before the season closed, was based on the knowledge of how much can be accomplished by the skilful handling of a "partie carree."

The suggestion was variously received. By Blaise, indifferently; by Jean, with her natural desire to know more of the great city she had glimpsed en route augmented by the knowledge that a constant round of sight-seeing and entertainment would be a further aid towards the process of forgetting; by Nick, the sun of whose existence rose and set at Charnwood, with open rebellion.

"Why go to be baked in London, madonna, when we might remain here in the comparative coolth of the country?" he murmured plaintively to his mother.

They were alone at the moment, and Lady Anne regarded him with twinkling eyes.

"Frankly, Nick, because I want Jean for my daughter-in-law. No other reason in the world. Personally, as you know, I simply detest town during the season."

He laughed and kissed her.

"What a Machiavelli in petticoats! I'd never have believed it of you, madonna. S'elp me, I wouldn't!"

"Well, you may. And you've got to back me up, Nick. No philandering with Jean mind! You'll leave her severely alone and content yourself with the company of your aged parent."

"Aged fiddlestick!" he jeered. "If it weren't for that white hair of yours, I'd tote you round as my youngest sister. And I don't believe"—severely—"that it is white, really. I believe your maid powderd it for you every morning, just because you were born in sin and know that it's becoming."

So it was settled that the first week of July should witness a general exodus from Staple, and meanwhile the June days slipped away and Tormarin in deliciously occupied himself in adding fresh stones to the wall which he thought fit to interpose between him-

self and the woman he loved. While Jean grew restless and afraid, and flung herself into every kind of amusement that offered, wearing a little fine under the combined mental and physical strain.

Claire, perceiving the nervous tension at which the girl was living, was wistfully troubled on her friend's behalf, and confided her anxious bewilderment to Nick.

"I think Blaise must be crazy," she declared one day. "I'm perfectly convinced that he's in love with Jean, and yet he appears prepared to stand by while Geoffrey Burke completely monopolizes her."

"Nick nodded.

"Yes. I own I can't understand the fellow. He'll wake up one day to find that she's Burke's wife."

"Oh, I hope not!" cried Claire hastily.

They were pacing up and down one of the gravelled alleys that intersected the famous rhododendron shrubbery at Charnwood, and, as she spoke, Claire cast a half-frightened glance in the direction of the house. She knew that Sir Adrian was closeted with his lawyer, and that he was, therefore, not in the least likely to emerge from the obscurity of his study for some time to come. But as long as he was anywhere on the place, she was totally unable to rid herself of the hateful consciousness of his presence.

He reminded her of some horrible and loathsome species of spider, at times remote and motionless in the centre of his web—that web in which, body and soul, she had been inextricably caught—but always liable to wake into sudden activity, and then pounce mercilessly.

"Oh, I hope not!" she repeated, shivering a little. "If she only knew what marriage to the wrong man means! . . . And I'm certain Geoffrey is the wrong man. Why on earth does Blaise behave like this?—impudently. 'Anyone might think—Jean herself might think—he didn't care! And I'm positive he does.'"

"If he does, he's a fool. Good Lord!"—moodily kicking a pebble out of his path—"imagine any sane man, with a clear road before him, not taking it!"

He swung round towards her suddenly. "Claire, if there were only a clear road—for us! If only I could take you away from all this!"—his glance embracing the grey old house, so beautiful and yet so much a prison, which just showed above the tops of the tall-growing rhododendrons.

"Oh, hush! Hush!"

Claire glanced round her frightfully, as though the very leaves and blossoms had ears to hear and tongue to repeat.

"One never knows"—she whispered the words barely above her breath—"where he is. He might easily be hidden in one of the alleys that run parallel with this."

(To Be Continued.)

Cross Baby

"Baby was awfully fretful," writes Mrs. H. A. Fievel, Ripple, N.B., "until I started giving BABY'S OWN TABLETS. Now he is just wonderfully well."

LET'S be the ideal treatment for children's colds, fever, colic and upset stomach. Harmless. See certificate in each 25¢ package. 27

Dr. Williams' **BABY'S OWN TABLETS**

It does pay to "ROLL YOUR OWN"

From the standpoint of economy—each 20c. package of Turret Fine Cut contains the makings for at least 50 cigarettes—and Chantecler cigarette papers free.

From the standpoint of real smoking pleasure, there's nothing like rolling your own with the smooth, mellow, fragrant Virginia tobacco that you get in the Turret Fine Cut package.

It does pay to roll your own with Turret Fine Cut.

15¢ and 20¢ packages—also in 1/2 lb. vacuum tins

TURRET FINE CUT Cigarette Tobacco

FREE Chantecler cigarette papers with every package.

THE RHYMING OPTIMIST

By Aline Michaeils

THE PEACE OF NIGHT

There is a wistful beauty in the night That frees the spirit from the hurts of day.

A tender loveliness in starry light, From sorrow's shores dusk bears us far away.

Our fragile boats adrift on that dark sea Whereof the stardust is the tossing spray.

Night brings a whisper of eternity Into the confines of our little lives. And peace comes down to dwell with you and me.

No more at least the futile passion strives No more love rends us with departing flight, No longer any hate or greed survives.

Earth's ties slip off when mounting stars are bright, And peace is ours' throughout the quiet night.

Persian Balm—there is nothing like it for creating and preserving a lovely complexion. Cooling, caressing—it soothes and dispels all roughness or chaf caused by weather conditions. Dainty, fragrant, it adds exquisite charm to the most finished appearance. Dainty women inevitably choose Persian Balm. A velvety smooth lotion, it makes the skin rose-lilac in texture. Recommended also to soften and whiten the hands. Truly a perfect toilet requisite for every woman.

Tax On Telegrams

Also On Cables, Radio Messages and Long Distance Telephone Calls

The Canadian taxpayer will once again be required to pay a tax on telegrams, cables, and radio messages, under the terms of the budget brought down by E. N. Rhodes, Minister of Finance. A new feature is the imposition of a tax on long distance calls by telephone. The tax is five cents.

The resolution providing for imposition of the tax reads as follows: "That on every cable and telegraph or radio message originating in Canada for which a charge of more than 15 cents is made, the sending press despatches, and on every long distance telephone call originating in Canada for which a charge of more than fifteen cents is made the sending company shall pay to the consolidated revenue fund a tax of five cents and may charge the same to the person paying the regular charges for such message."

A novel electric candle-lamp has been perfected which, when raised for a table on which it rests, is lighted. On being placed on the table again, it is extinguished.

Condemns the Tourniquet

Lancet, British Medical Journal, Calls It "Disreputable Bell"

The tourniquet, bound tightly around the arm or leg to stop bleeding, is no longer considered good practice in first-aid, it appears from an editorial note in "The Lancet," British medical journal. The danger of prolonged pressure with this instrument was emphasized and the tourniquet itself was referred to as "a disreputable relic of the past whose only habitat should be the museum."

For seven years a Belgian physician, Dr. M. Stassen, has dispensed with the tourniquet in the first-aid equipments for which he has been responsible. "The Lancet" points out, Dr. Stassen thinks the tourniquet is a frequent cause of shock and gas gangrene. By completely stopping the blood circulation in the injured limb, it promotes infection in the crushed and torn tissues. Its removal is followed by absorption of poisons capable of killing a patient already weakened by cold, shock and loss of blood.

Income Tax Collecting

\$744,000,000 Collected By Federal Government in 14 Years

In the 14 years the income tax has been in effect approximately \$744,000,000 has been collected by the Federal Government.

The collection of this sum has cost less than \$26,000,000.

These were points of interest in a recent broadcast by C. S. Walters, commissioner of income tax, Ottawa, on the Dominion Income Tax.

The average yearly income tax for the first 13 years was more than \$52,000,000, while the collection for the last year alone will total more than \$61,000,000.

Last year about 20 per cent. of the total revenue of Canada was raised by the income tax, Mr. Walters said.

Oldest Peer Dead

Lord North, the oldest peer in Great Britain, died recently at his home at Wroxton Abbey. He was 95 years old.

About one-third of the telephones in the United States are now of dial type.

MILBURN'S HEART NERVE PILLS

Price 50¢ a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Little-Helps For This Week

"For God hath not given us the spirit of fear; but of power, and of love, and of a sound mind."—2 Timothy 1.7.

Lord and Father, great and holy! Fearing naught we come to Thee; Fearing naught, though weak and lowly.

For Thy love has made us free. By the blue sky bending o'er us, By the green earth's flowery zone, Teach us, Lord, the angel chorus, Thou art love and love alone.

—Frederic W. Farrar.

"Fear may create the enforced obedience of the slave, love only can win the devotion of the child, and that is why God hath not sent to us who know the truth and whom the truth has made free—the spirit of fear and bondage, but of love, and of power, and of a sound mind. And this love is the sole basis of holiness.—Ibid.

Exempt From Sales Tax

Pastries Not Made From Bread Dough On Free List

By virtue of the budget, exemption from sales tax has been applied to cakes, pastries, pies and cookies, not made from bread dough, provided that the bakers of such commodities had not a sales volume exceeding \$5,000 in the last calendar year.

Instructions to collectors of excise have been issued to this effect by the Department of National Revenue.

Relief From Asthma. Who can describe the complete relief from suffering which follows the use of Dr. F. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes! It has made asthmatic affliction a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Television Coming

Guglielmo Marconi, who announced that he had made successful tests of a new shortwave radio telephone, disclosed recently that he is turning his inventive genius to television. "I expect soon," he said in an interview, "to be able to see my family in New York while I speak with them by wireless telephone."

Sorry To See Night Coming She Could Not Sleep

Mrs. K. McElroy, Kirkfield, Ont., writes—"I was very nervous and run down, was short of breath, and had smothering feelings, and was sorry to see night coming as I could not lie down or go to sleep."

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relaxed, can sleep fine all night, and have gained in weight."

J. C. McFarland Co.

Main Street

Mrs. Jas. Kennedy, Sr. is reported very ill.

Mr. W. H. King made a trip to Fab-yan Thursday of last week.

J. R. Love was in Irma Monday interviewing some of the residents of the Irma district.

Mr. C. Wilbraham and G. A. Tripp are confined to their homes with bad colds.

Mr. J. J. Wiese of Wainwright spent Sunday with his nephew F. C. Wiese on Strawberry Plains.

Mr. and Mrs. P. J. Hardy motored to Edmonton where he expects to undergo an operation.

Mrs. J. D. Campbell of Edmonton spent last week visiting her brother and family, Mr. J. Fenton of Sunny Brae district.

Mr. George Worthing who has been spending the winter on the Emil Wirth farm near Irma has moved to the Madder farm north of Fabyan.

Mr. and Mrs. T. A. Liden, of Holden were in Irma, Monday night and attended the Eastern Star social evening.

There will be an Anglican Service in the United Church on Sunday, April 24th at 3 p.m. Easter communion will be celebrated. Rev. A. M. Trendell.

Mr. Chas. Coffin and two sons arrived from Youngstown, Saskatchewan the first of the week. Mr. Coffin is renting the J. R. Love farm, west of Irma.

Mrs. L. A. Schon received word Wednesday morning that her father, Mr. Riley, of Lacombe, had passed away. Mr. and Mrs. Schon left later in the day for Lacombe.

On account of the wet weather Monday evening the attendance at the Social evening held by the Eastern Star lodge was not as large as expected. Those who attended had a very enjoyable evening.

The weather for the past week has been rather cool with a few showers. Most of the farmers have started working on the land preparing it for seeding but very few have done any seeding yet.

Mrs. Osterhout, Mrs. Reeds, Mrs. Elford, Mrs. Locke and Mrs. Geeson took in the W. M. S. Presbytery at Wainwright last week. Mrs. Geeson will give the report at this week's meeting at Mrs. Tripps. A full report will be printed later.

A daughter arrived at the home of Mr. and Mrs. C. Archibald Coffin day, April 15th, also Mrs. Joe Saville was made the proud mother of a daughter at the Manville Hospital on the same date. Mrs. Saville and Mr. Archibald are sister and brother. All are doing nicely.

Tuesday night the first shipment of bees to arrive this spring landed in Irma. The shipment consisted of fifty packages of over 10,000 and a queen in each package making a total of over half a million bees. Five or more similar shipments will arrive within the next two weeks. These bees will be placed in or near sweet clover fields in the Irma district and should produce from twenty-five to thirty tons of honey before next fall. The bees are shipped from California taking four days to make the trip.

Special Announcement

Why don't the Machine Companies lower their Prices on Farm Machinery?

This question has been asked time and again. The Massey-Harris Company now announce a 10 per cent. Discount Off payments on New Implement purchases, also on all Existing Implement debts paid prior to November 30th, 1932. Will the farmers appreciate this move? We hope so. The Massey Harris Machinery is known to be the best built and most up-to-date line on the market. Their machinery takes less repairs and lasts longer, also the repairs are cheaper. Why not buy from a Canadian Company and show that you appreciate the move they have taken. Others may follow their lead — help the ones who started it. If you want a New or Second hand Drill see us immediately.

Are you trying our Blacksmith Work? Our customers are satisfied. Come in, give us a trial, we are Experts on Wagon, Axle and Wheel work, also Plow Work. If you need a Saw Sharpened we can do it and guarantee satisfaction.

Our Grain Grinding has made us many friends. Grinding done any day and evening by appointment, let's get acquainted.

THOSE SPRING REPAIR JOBS

Spring is the recognized time for making repairs and alterations, for repainting, renovating and redecorating. With the turn of the season comes a recurrence of the impulse to fix things up, to restore the wear and tear of the year, to make changes indoors and out that will give new interest and added appearance to the premises.

In keeping with the times, the prices of materials and tools required for these spring chores are lower than for many years, and the advertising columns disclose offers of special reductions in many lines. Wages for unskilled work are also at a lower level than in more active years. The cost of making renewals and improvements is thus substantially below normal, and the opportunity to effect such betterments correspondingly attractive.

Nor is it to be forgotten that these

odd jobs may play an important part in easing the difficulties of many men who have been out of employment during the winter. The sooner they are put in hand the more welcome they will be to men who have been earning little or nothing for some months and who have been looking forward to spring with hopes of better times.

"The girls of today are so much like an animated doll," said an old codger philosophically at the dance. "Yes, but you don't find any of them crying 'Mamma' when they're squeezed," replied one of the experienced young fellows.

Heard at the schoolhouse: Teacher: "What is the difference between a sentence and a cat?" Student: "A sentence has its pause at the end of its clause; a cat has its claws at the end of its paws."
